Working towards age related expected standard			
Developing -		Developing	Developing +
D-		D	D+
Working at age related expected standard			
Secure -		Secure	Secure +
S-		S	S+
Working above age related expected standard			
Mastery -		Mastering	Mastering +
M-		M	M+

Further information

A child working at Age Related Expectation (ARE) would achieve a Secure attainment grade by the end of the academic year. The attainment system works through 4 stages (Emerging, Developing, Secure and Mastery) that are subdivided into 3 steps (lower, middle, higher). If your child is working at the beginning of these stages they will be in the Emerging category, the next stage is the Developing. A child working at ARE would begin the year in the developing stage and end in the Secure. A child working above these categories would be in the Mastery section.
